

PEOPLE

Working in partnership with the construction and built environment sector to connect more local people with exciting career opportunities.

APRENTICESHIP AND TRAINEE OPPORTUNITIES MARCH 2019

Building Plymouth aims to raise the profile, improve the image, and to increase awareness of opportunities in construction and the built environment. This Bulletin published during National Apprenticeship Week 2019, promotes a selection of the current local apprenticeship and trainee opportunities across trades, technical and professional pathways, at all levels including higher level and degree apprenticeships.

We would be grateful if you could please circulate this Bulletin to local people interested in pursuing a career in this dynamic and growing sector, and encourage potential applicants to quote Building Plymouth on application. We also welcome you to visit our website www.buildingplymouth.co.uk containing useful career related information, and follow us on Social Media to keep up to date with current Building Plymouth news and events:

APPRENTICESHIP JOBS FAIR

**PLYMOUTH BUSINESSES
NEED YOU!**

Welcome to the 2019 Apprenticeship Jobs Fair co-hosted by Building Plymouth and the Plymouth Manufacturers' Group.

All the organisations listed below are here today, ready to talk to you about apprenticeships in construction, the built environment, manufacturing and engineering.

We've also lined up some helpful talks in the Lower Guildhall to help you understand how apprenticeships work, what it means to be an apprentice and how far an apprenticeship can take you. You'll be able to ask questions at the end of each session too.

Talks and Q&A in Lower Guildhall

APPRENTICESHIP ROLES WITHIN THIS BULLETIN EXPLAINED

Administration / Business Administration

Deliver the practical and/or clerical support necessary to ensure the smooth running of general business operations or specific tasks and projects.

Building Services Engineer

Building Services Engineers install, maintain and often design the systems that make buildings safe, convenient and comfortable.

Building Services Technician

Building Services Technicians help engineers design, plan and install electrical and mechanical systems within buildings.

Building Surveyor

Survey buildings to assess their condition and structure, providing advice on repairs or proposed renovations or alterations.

Bricklayer

Lay bricks, pre-cut stone, concrete blocks and other types of building blocks in mortar to construct and repair walls, foundations, partitions, arches and other structures.

Carpenter

Carpenters and joiners make and install wooden fixtures and fittings as part of construction projects.

Civil Engineer

Civil engineers have the important role of planning, designing and managing construction projects.

Demolition Operative

Demolition operatives dismantle old and derelict structures or buildings.

Dryliner

Create the walls and rooms in a building. They also hide pipes and wires, create space for insulation and smooth out uneven surfaces during renovation work.

Electrician

Install, inspect and test electrical equipment, making sure everything in a building works properly and safely.

Electrical and Mechanical Engineer

'M&E' in construction refers to mechanical and electrical systems. The term is often taken to be interchangeable with 'building services' / 'building services engineer'

APPRENTICESHIP ROLES WITHIN THIS BULLETIN EXPLAINED

Engineering Technician

A key part of the design and construction team, working alongside a wider design and construction team.

Fenestration / PVCU Fabricator

Fenestration is the fabricating and assembly of windows, doors and other openings to buildings.

Flooring / Floor Layer

Floor Layers are trained in laying floor coverings and floor finishes.

Landscaping and Horticulture

The creation and upkeep of places for people to live, work and play and places for plants and animals to thrive.

Multi-Trade Operative

Multi-trade operatives cover a multitude of trades within construction including carpentry, painting and decorating, bricklaying and plastering

Painter and Decorator

Painters and Decorators work on a wide range of painting and decorating jobs, ranging from simple house renovations all the way to maintaining historic buildings.

Plasterer

The plasterer is indispensable to most building sites – making walls and ceilings smooth and ready for decorating.

Quantity Surveyor / Cost Consultant

Quantity surveyors work out exactly how much a building costs to construct and are in charge of finances.

Scaffolder

Scaffolders erect and dismantle temporary metal structures, usually around buildings, which allow other construction trades to carry out their jobs safely.

Structural Engineer

Structural engineers design structures to withstand stresses and pressures imposed through environmental conditions and human use.

Apprenticeships with AECOM

AECOM is built to deliver a better world. We design, build, finance and operate infrastructure assets for governments, businesses and organizations in more than 150 countries.

As a fully integrated firm, we connect knowledge and experience across our global network of experts to help clients solve their most complex challenges. From high-performance buildings and infrastructure, to resilient communities and environments, to stable and secure nations, our work is transformative, differentiated and vital. A *Fortune 500* firm, see how we deliver what others can only imagine at www.aecom.com and @AECOM.

For placements/ apprenticeships

Internships & Industrial Placements: We offer around 100 summer and industrial placements per year across our key business lines – Building Engineering, Water, Transportation, Programme Cost Consultancy, Environment, Design, Planning & Economics, Energy, and Geotechnical & Tunnelling. Typically, applications will open in February/March time. You will be required to submit your CV online and, if successful, attend an interview in the office to which you are applying. Depending on your performance, we may offer sponsorship when returning to full time education after your work experience placement. Please visit our website for more information.

Apprenticeships & Traineeships: The AECOM Apprenticeship Programme has been established to support and train school leavers, in line with the recent UK government initiative. We recruit school students from the age of 16 into technical and support service roles across the UK. Our annual intake tends to be September, and we would typically open applications through our careers website around March each year. The application process involves submitting your CV online followed by a final stage interview with the hiring manager in the office to which they have applied if the candidate is successful.

Please visit our website for more information:

<https://aecom.jobs/jobs/?q=APPRENTICESHIP>

Building Surveying Apprentice

Are you about to complete your GCSEs or A-levels and are considering a path as a Building Surveyor?

Do you want join an award winning multidisciplinary consultancy practice offering an incredible training package?

If so then please read below!

We are a growing multi-discipline practice with 4 offices across the South of England. Due to our continued success we are looking to appoint an Apprentice Building Surveyor for our Plymouth Office starting September 2019. The successful individual will be enrolled onto a RICS Accredited training scheme where after 2.5 years they will become a Building Surveying Technician and gain Associate status with RICS. Upon successful completion of the course the individual will have a direct route to the Level 6 surveying degree to gain their chartership if they so wish.

Qualifications

The successful candidate should have gained, or be on track to achieve, at least 5 GCSEs at Grade 5 or above including Maths & English.

The successful candidate should also have a good understanding of what building surveying is, and is fully aware of the career path ahead.

We are looking for an enthusiastic and highly motivated individual who is determined and passionate about becoming a Building Surveyor.

All applicants must also have the desire to gain a full drivers licence upon eligibility.

Key Duties

- Generally working with the team and assisting staff both in the office and at site visits
- Collect information from inspections or visits to buildings, land and construction sites
- Take appropriate measurements of buildings, land or plans
- Meet with other professionals, clients, customers and others to obtain and provide information relating to land, property or construction

- Collect and record data relating to land, buildings or construction for technical use
- Manage work tasks relating to the area of practice
- Undertake costings and/or measurements and/or valuations using data collected from research
- Ensure a safe working environment for themselves and others.

Benefits

- Join a dynamic consultancy with excellent progression opportunities
- Support and guidance through your apprenticeship
- Regular and committed training and CPD opportunities
- Competitive Salary
- Regular sports & social events-BBQ's, boat trips, bowling nights and much much more!
- Private Healthcare
- Excellent enhanced pension scheme
- Enhanced sick pay scheme (including long term sickness insurance)
- Access to 24/7 counselling through our employee assistance helpline
- Exclusive restaurant, travel and retail discounts.
- Access to free independent 1 to 1 financial advice
- Flexible working including homeworking where appropriate

And much more.....

To apply please visit www.baileypartnership.co.uk/careers.

Closing date Friday 5th April.

Bailey Partnership (Consultants) LLP is a equal opportunities employer.

GILPIN

I x Business Administration Apprenticeship, Plymouth

I x Commercial Administration Apprenticeship, Plymouth

Kier Construction, Plumer House, Plymouth

About Kier

As an apprentice with us, you will receive the training and support needed to start a career with a leading infrastructure, buildings, developments and housing group. Being part of Kier means living our values of being collaborative, enthusiastic and forward thinking. Bring your talent and ambition to Kier and you will be given the scope and opportunity to invest in your future, to build your expertise and contribute to a rich and diverse culture.

About this opportunity:

On this apprenticeship you will undertake a **Business Administrator Level 3** programme. Whilst undertaking your academic learning you will also be working alongside our experienced teams to learn hands-on, work-based skills.

Some of the key tasks that you will carry out in this role include:

- Utilising various IT packages and systems including MS Office 365
- Maintenance of electronic records and files
- Document control
- Collation of reports and documents

What do we expect from you?

Many of the skills you will need to be successful in this role will be developed as part of your training. However, alongside our values there are a few key behaviours that are desirable for this role, and as part of any selection assessment process you may be expected to show us how you demonstrate the following behaviours:

- Willingness to learn
- Self-motivated and organised
- Punctual and trustworthy
- Conscientious, committed and hardworking
- Enthusiastic and forward thinking
- Collaborative

What can you expect from us?

You can expect access to ongoing support and guidance, together with the opportunity to participate in wider Kier initiatives by becoming a Shaping Your World Ambassador or a Kier Charity Champion. You can also join in with our regional Balanced Business Networks, sharing best practice and ideas with colleagues on the best ways to make Kier a more inclusive employer. At Kier we will commit to investing in your future and offer long-term career opportunities and progression.

What next:

If you are interested in one of these exciting opportunities please send your CV to:

Business Administration: diane.pengelly@kier.co.uk

Commercial Administration: Julian.holmes@kier.co.uk and Fallon.wiese@kier.co.uk

We look forward to hearing from you.

We are an Equal Opportunity Employer and do not discriminate against any employee or applicant for employment because of race, colour, sex, age, national origin, religion, sexual orientation, gender identity, disability or any other protected characteristic. Make the journey. Leave a legacy.

2 x Apprentice PVCU Fabricator, Plymouth

Prince Rock, National Minimum Wage, 37 hours per week

Plymouth Community Homes is all about people. With a great workforce we deliver good quality, well-managed and well-maintained homes. We also have manufacturing departments including PVCU Windows and Doors, Sign Shop and Joinery. We are looking for two apprentices to join us in our PVCU Fabricating department.

The successful candidates will be willing to undertake appropriate training and work experience to develop competence in PVCU fitting skills in support of the provision of a PVCU fitting service for the window factory or anywhere in the manufacturing departments as required. The apprentice must demonstrate a strong work ethic and commitment to achieving their best in all areas of their vocational and academic training, as well as going above and beyond to seek out knowledge and enhance their capabilities.

Enthusiasm and motivation:

The apprentice demonstrates awareness, enthusiasm and passion for their work and the construction sector.

Duties and responsibilities to be working towards may include:

1. To assist with a wide range of high quality PVCu installations, including the removal of old windows & doors, measuring and fitting.
2. Attend Skills Group and complete the learning agreement required for successful completion of a work based apprenticeship
3. Responsible for keeping work area tidy and free from waste materials
4. Ensure that properties are left in a clean and tidy condition
5. Observe all relevant health and safety regulations and Plymouth Community Homes policies
6. To attend meetings, training sessions and conferences as required

Please send a copy of your CV to:

Email - Recruitment.PCH@plymouthcommunityhomes.co.uk

Post – Plumer House, Tailyour Road, Plymouth, PL6 5DH

For an informal discussion about this role, please contact Matthew Searl on 01752 388058

This post is not suitable for job share.

Closing Date: 22/03/19

We are a committed Equal Opportunities employer. We welcome applications from suitably talented people from any community and background.

TClarke

Electrical and Mechanical Engineer, Plymouth

TClarke is well known as a place with strong traditions. People join as apprentices and stay throughout their careers, building deep skills, moving up and sharing knowledge.

A TClarke job means TClarke people, taking responsibility and pride in the installation. This page sets out the simple fundamentals of our business which form the 'TClarke Way'.

We have at least one Electrical and Mechanical apprenticeship on offer currently, with more apprenticeship vacancy roles coming soon.

Find out more about us and on our website: www.tclarke.co.uk/

All applicants must apply in writing to Vicki Knight at the St Austell office enclosing a copy of your CV:

Management Office
St Austell Business Park
Saint Austell
PL25 4FD

Vicki.Knight@tclarke.co.uk

Apprenticeship in Landscaping and Horticulture, Plymouth

YGS is an established and award winning landscaping business who is now seeking an apprentice to join their busy team. This is a great opportunity for someone looking for a career in Horticulture, soft and hard landscaping.

Weekly wage: £144.30

Mon to Thursday 7.45 am - 16.45 pm, Friday 7.45am - 15.45pm

Total hours per week: 39.00

The company are seeking an enthusiastic individual to join their mobile work teams. In this role candidates will gain valuable experience in fencing and soft landscaping activities.

Tasks will include:

- Installation of various garden fence types
- Installation of various security fence types
- Installation of other timber products, for example sheds and decks.
- Preparation and laying of turf to gardens, also including sowing of seed to larger areas
- Preparation and planting shrubs, trees, hedges to gardens and large open spaces
- To maintain commercial and residential spaces to YGS high standards, for example cutting hedges level, weed identification and killing, mowing grassed areas and cleaning down existing sites
- Use of various machinery to assist the role

NOTE: These are only a few of the tasks the apprentice may undertake, we do carry out such a variety of work that this should give a taste of what we do.

Personal qualities

Successful apprentice candidates would be hardworking and self-motivated, and clearly be keen to learn more about the industry, plant behaviours and techniques used.

The nature of the work requires candidates to be physically strong, good at teamwork while also comfortable working alone. A keen attention for detail and dexterous is essential to this type of work.

Desired qualifications

There is no specific requirement for any previous qualifications. It may be advantageous to hold a current CSCS card, although again this is not essential as training will be given.

Apply now by emailing your CV and Cover Letter to:

info@ygslandscapes.co.uk

Degree Level 6 Cost Consultant, Exeter

Wherever you work, whatever you do, as an Arcadian you have the chance to Improve Quality of life. It's what unites and inspires us.

About our Apprenticeship Programme

The Level 6 Chartered Quantity Surveyor Apprenticeship will lead to obtaining a RICS accredited degree and RICS Assessment of Professional Competence (APC). Our Quantity Surveying Apprentices undertake a part time degree over the course of 5 years.

The Apprentice will work towards the RICS APC over the duration of their apprenticeship but will enrol in the penultimate year and will then take the RICS APC final assessment as their end point assessment, this will lead to achieving fully chartered surveyor status.

The role will allow you to access "on and off the job training" gaining knowledge and hands on experience of supporting our Quantity Surveying teams in their delivery of exciting projects across our sectors.

Typically, a Surveying Apprentice will work 5 days per week. Typically, 4 days "on the job" training and 1 day "off the job". The training will be delivered by blended learning including online and distance learning, supported by a Virtual Learning Environment with online tutor support as well as monthly tutor led workshops at central locations.

As a Surveying Apprentice you will be on a fixed term contract. At the end of which it would be decided if we would like to take you on permanently and progress to an Assistant level.

Entry Requirements

The entry requirement for the Apprenticeship will typically be 96 UCAS points to commence at Level 6 Degree Level.

Responsibilities

- To provide quantity surveying & cost management support in the delivery of projects and assignments.
- To deliver elements of quantity surveying assignments under the supervision of more senior members of staff.
- To be able to take a simple brief from a more senior member of staff and act upon it.
- To provide all work outputs in an accurate and timely manner
- To provide general support to the team
- Meet all the assessment requirements and expectations associated with your academic course of learning.

Skills & Behaviours Required

- An interest in construction & the built environment.
- Have a good head for numbers & enjoys working with IT.
- Ability to present information in a clear and concise manner.
- Enjoys a challenge & has good problem-solving skills.
- Organised & the ability to multi-task.
- Good interpersonal and communication skills.
- Be a team player.

You can apply via the National Apprenticeship Service or the Arcadis website:

[https://arcadisnv.taleo.net/careersection/arc_external/jobsearch.ftl?f=LOCATION\(5305010212\)|JOB_TYPE\(5,2,4\)&a=null&multiline=false&ignoreSavedQuery&sasNo=186305010212](https://arcadisnv.taleo.net/careersection/arc_external/jobsearch.ftl?f=LOCATION(5305010212)|JOB_TYPE(5,2,4)&a=null&multiline=false&ignoreSavedQuery&sasNo=186305010212)

Balfour Beatty

Apprentice Civil Engineer 2019 - Degree level - Exeter

Qualifications needed: 2 A levels or equivalent in STEM subject or Advanced Apprenticeship in Engineering

Closing Date – applications are open until 29th April 2019, however we reserve the right to remove adverts should the roles be filled before this date.

About the role:

You will follow a five year training programme as part of our ICE-accredited programme, geared towards you achieving Incorporated Engineer status. Depending on project requirements, you will be site or office based.

Our aim is to develop your skills and to help you reach your full potential. As your programme progresses you will have increased responsibility in the dimensional control of projects, supervision of specialist contractors and the construction workforce and will take the lead for solving technical problems.

Throughout you will ensure compliance with our Health and Safety and Sustainability agenda and aspire to a Site, Construction or Project Management career.

What you'll be doing

- To ensure that safe systems of work are in place on site and that all staff adhere to them
- To translate design information to construction teams so they can construct the project effectively and efficiently
- To manage the productivity on the site so that the project is completed on time
- To ensure that the project is completed to the specification and quality needed by the client
- To manage the activity on site in a way that adheres to cost and contract constraints

Who we're looking for

- 5 GCSE's grade 9-4/A*-C (or equivalent) including Maths, English & Science with B in Maths
- Minimum 2 A-Levels, NC or equivalent, at grades A-C including Maths, Science or Engineering
- Pass pre-employment medical which will include a Drug & Alcohol test

As well as strong numeracy and well-developed team and people skills, you have the passion and enthusiasm to keep the momentum going on a project. You will be able to set the pace as well as the standards for the team. You will also have the ability to describe what interests and motivates you to the construction industry.

The following qualifications will be gained:

- BEng (Hons) Civil Engineering
- Engineering Technician status and Technician Member of the Institution of Civil Engineers
- Incorporated Engineer status and Member of the Institution of Civil Engineers

Why work for us

Salary & benefits: We offer a competitive salary and a flexible benefits package. Your professional institution fees and training will be covered.

To apply, please search any apply using the Balfour Beatty website

<https://pages.beamery.com/balfourbeattyet/form/emergingtalent/sign-up?vacancy=QqGO6d0wi>

Balfour Beatty is an equal opportunities employer and has been accredited with the Positive about Disabled People ("Two Ticks") symbol and we are a member of Stonewall's Diversity Champions programme.

Construction Apprentices in Plymouth

A small, local construction business with over 40 years' worth of experience is looking for apprentices to join their busy team. Work will be predominantly in and around Plymouth.

The Apprentice's Role

As the apprentice with Elmes Construction you will be expected to conduct a variety of roles including brick and block work, you will be working on domestic and industrial work such as extensions, building bungalows, new builds and renovation work. You will learn how to prepare foundations to specific designs and in accordance to construction regulations, how to mix cement and mortar and how to lay bricks and blocks. You will always work alongside a colleague to ensure a high quality of work. You will learn how to cut and shape bricks to specific shapes to fits properties.

Working Hours: Hours will vary each week; a typical working week is Mon-Fri 8am to 4.30pm.

Wages: £148.00 per week. Any overtime above the 40 hours per week, will be paid at the appropriate national minimum wage depending on age.

Holiday: 28 days holiday entitlement (including bank holidays) will be paid each year, during the course of your apprenticeship.

Carpentry Apprenticeship, Plymouth

Heritage Preservation based in Plympton, Plymouth is looking for a hardworking and reliable apprentice to join their professional team to work on both domestic and commercial sites in and around the Devon and Cornwall area.

As an apprentice you will be working in a very supportive close team. You will need to be able to understand instructions quickly and precisely and work to deadlines on all tasks. You will need to be physically strong in order to meet the demands of the role.

Your job will include:

- Large heavy materials and cutting them to certain specific shapes to design plans
- Making stud wall fixings, stairwells and fitted furniture
- Working with a variety of tools and equipment within this role including saws, power tools, hammers and shaping equipment
- You will be shown how to use all specialised tools and equipment correctly and safely, having a focused approach at all times

You will need to be able to work well within an experienced team, and work closely with other skilled tradesman, where you may have the opportunity to learn additional skills and gain further knowledge. You will be supervised by a qualified member of staff and as part of your duties you must follow Health and Safety procedures in the workplace at all times. You must wear the correct personal protection equipment whilst on site, and will be required to make sure that all tools and equipment used are put away correctly at the end of each day.

Desired skills:

- Eager and keen to succeed within the construction industry
- Able to cope with the physical demands of the role and to work well in a small friendly team
- Hardworking, reliable, keen and friendly
- Able to work in a team and have good communication skills in order to work with colleagues and speak to clients
- Precise with your work

You will need good coordination skills with an attention for detail and have a focused approach on all the work that you carry out.

Personal qualities:

- Possess the motivation to work hard and to achieve a high standard of workmanship
- Confident and outgoing
- Enthusiastic about the Construction Industry
- Good timekeeping and attendance is required both with the employer and when attending the Skills Group training centre
- Good level of stamina and fitness for this role as it can be challenging and demanding

Desired qualifications:

GCSE or equivalent English and maths at C or above would be desirable however not essential.

Future prospects:

After successfully completing a Level 2 qualification in Carpentry and Joinery there may be the opportunity for the right candidate to progress onto an advanced Level 3 apprenticeship should you demonstrate the right skills and qualities.

Apply via www.findapprenticeship.service.gov.uk/apprenticeship/-323357

Structural Engineering Apprentice Technician

What's in it for you?

- You'll learn how to produce 2D and 3D engineering drawings
- You'll learn how to use new software such as Revit and AutoCAD
- You'll go on site visits and take part in client meetings
- You'll learn how the professional workplace actually works!
- You'll gain experience, qualifications and confidence.

Who are we looking for?

- Are you motivated and committed?
- Do you have strong technology, Maths, English and IT skills?
- If you enjoy working at a computer, technical drawing, shape and pattern, getting things 'just so' and working in a team, then you'll probably love this job!

Why join us?

- Start your career and gain qualifications and professional memberships at our cost (no student loans!)
- Gain transferable skills you can use within the UK and internationally

**J & D
Bricklaying
Contractors
Ltd**

Bricklaying Apprentice Plymouth

J & D Bricklaying are looking to take on two bricklaying apprentices to join their hard working team in Plympton, as part of the role you will be covering the South West area.

The Apprentice's Role

The successful apprentices will be supervised at all times, working closely with the employer to learn all aspects of bricklaying.

Work duties will include:

- General labouring
- Measuring and cutting materials
- Setting out work areas.

You will also be shown how to use specialist tools and equipment such as operating a cement mixer to prepare mortar and cutting and shaping bricks to fit corners. The apprentice will need great attention to detail and will learn to use plumb lines and spirit levels to check that the bricks are aligned correctly. During your working day you will be using a range of other specialist tools ranging from hammers and trowels to state-of-the-art power tools.

Working Hours: 40 hours per week, 8am- 4.30pm, Monday to Friday. Working times may change depending on site location.

Wages: £148.00 per week, based on a 40 hour week. Any overtime above the 40 hours per week, will be paid at the appropriate national minimum wage depending on age.

Holiday: 28 days holiday entitlement (including bank holidays) will be paid each year, during the course of your apprenticeship.

Contact Details: If you have any queries please contact us on either this email address apprenticeships@skillsgroupuk.com or call us on 01752 332442.

2019 UK Degree Level Apprenticeship Scheme, Exeter

Quantity Surveying (Exeter)

Quantity surveyors manage and lead the cost aspects of a construction project while ensuring that quality standards and client needs are always met. They will also ensure that disputes are minimized and settled amicably.

It's a numbers game so if you're a numbers person, then this is the apprenticeship for you!

You'll be working alongside professionals with a wealth of industry experience which will enable you to constantly expand and broaden your knowledge. At the end of all your hard work, you'll have a BSc (Hons) in quantity surveying and an Assessment of Professional Competence (APC).

What you'll need to apply:

If everything above sounds great, take a look at what you'll need to apply and get started:

- You'll need to have achieved or are expected to achieve 3 A level passes with grades A*-C or equivalent, one being in math's, and another in a physical science. Alternatively a BTEC diploma in civil engineering.
- You must have a math's GCSE with grade 6 or B and above, of equivalent math's qualifications, as well as an English GCSE with grade 6 or B and above.
- For quantity surveying, we will accept a Level 4 construction technician apprenticeship, or achieved (or are expected to achieve) a HND in construction or 3 A level passes with grades A*-C or equivalent.

What characteristics do we look out for?

Do you have what it takes to join us as an apprentice? We're looking for individuals with the below characteristics, if you recognise these in yourself, then we'd like to hear from you!

We're looking for someone that is:

- Aware of others' needs and concerns
- Able to demonstrate reliability, integrity and respect for confidentiality
- Able to maintain productive working relationships
- Good at demonstrating a strong commitment to health, safety and welfare
- Confident with dealing with new and changing interpersonal situations
- Prepared to take responsibility of their own personal development, demonstrating commitment to learning, self-improvement and open feedback
- Able to demonstrate self-awareness of knowledge and skills

SHARED APPRENTICESHIPS **SOUTH WEST ARE** **RECRUITING FOR** **CONSTRUCTION BASED** **APPRENTICESHIPS** **ACROSS THE SOUTH WEST**

TRADE VACANCIES:

Supporting Construction trades including

**Carpentry,
 Painting & Decorating,
 Ground Working,
 Drylining,
 Bricklaying,
 & Scaffolding.**

To apply you must be at least 16 years old, be passionate and enthusiastic about the Construction Industry and have a desire to grow and learn.

SASW will support you to take the first step towards your lifelong career in the Construction Industry. You will be employed by SASW and we will work with our host contractors to ensure that you have the relevant placements to complete your apprenticeship. We work with host contractors such as Willmott Dixon, Midas, BAM, Morgan Sindall and Galliford Try.

You will be earning and learning – at college you will be working towards your diploma and developing your skills, which, you can then put in to practice on site. You will be working towards industry recognised qualifications. A Level 2 apprenticeship lasts 2 years and this can be supplemented by a Level 3 apprenticeship (where available) which lasts a further year.

CONSTRUCTION TECHNICIAN **VACANCIES:**

Calling all aspiring Site Managers, Quantity Surveyors, Planners and Estimators.

You need to be at least 16 and have a passion for the construction industry. With a positive and enthusiastic approach to work and learning at college. You will also need to have GCSE English and Maths at Level 4 or above (or equivalent).

Through this apprenticeship you will be part of the site team working with the main contractor and sub-contractors and supporting the management team, the apprentice will learn all aspects of running a safe and productive construction site. In the first year the apprentice will gain a solid understanding of health, safety and welfare, preparing schedules of work and developing and maintaining working relationships alongside basic skills in estimating, planning, buying, surveying and site technical support.

During the second year an area of expertise may be selected to specialise in.

SASW will place you with a host contractor to provide you with the opportunity to complete your apprenticeship. SASW works with construction companies including Wates, Morgan Sindall, BAM, Kier and Midas. SASW will be with you every step of the way providing support to ensure that you are on the path to success and to help you find employment at the end of your apprenticeship.

We pay our apprentices National Minimum Wage for their age and in addition offer support towards travel to work of up to £25.00 per week. We will help you to get site ready, supporting you through your CSCS test and providing you with relevant PPE and a starter tool kit. We also work with CITB to arrange your college placement.

Interested?

- Then please apply online using our Apprentice Application Form.

Skills Training Scheme

The Sherford Consortium is committed to strengthening the region's business, economic and employment landscape, including by creating a legacy by nurturing local talent and the next generation of construction workers.

Alongside City College Plymouth and South Devon College, the Sherford Consortium offers onsite training, work experience and long-term employment opportunities during every phase of the town's construction, with its Skills Training Scheme.

Open to all, the scheme is designed to help provide people with the skills needed to those wanting to pursue a career in construction. Participants learn at Sherford's revolutionary new on-site training centre. There is tuition in various areas of construction, including groundworks, roofing, carpentry, plastering, plumbing and bricklaying.

Trainees will also gain practical experience knowledge of health and safety, large scale development processes and on-site communication.

Apply for the Skills Training Scheme today by registering your details on the Sherford website.

If you are interested in a job or an apprenticeship opportunity at Sherford, please email: sricketts@cityplym.ac.uk
