

PEOPLE

Working in partnership with the construction and built environment sector to connect more local people with exciting career opportunities.

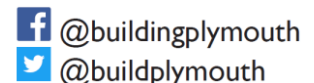

APPRENTICESHIP AND TRAINEE OPPORTUNITIES AUGUST 2019

Building Plymouth aims to raise the profile, improve the image, and to increase awareness of opportunities in construction and the built environment. This Bulletin published prior to GCSE and A Level results days 2019, promotes a selection of the current local apprenticeship and trainee opportunities across trades, technical and professional pathways, at all levels including higher apprenticeships.

I would be grateful if you could please circulate this Bulletin to local people interested in pursuing a career in this dynamic and growing sector, and encourage potential applicants to quote Building Plymouth on application.

Check out our website buildingplymouth.co.uk containing useful career related information and follow us on Social Media to keep up to date with current Building Plymouth news and events:

Construction Apprentices in Plymouth

A small, local construction business with over 40 years' worth of experience is looking for apprentices to join their busy team. Work will be predominantly in and around Plymouth.

The Apprentice's Role

As the apprentice with Elmes Construction you will be expected to conduct a variety of roles including brick and block work, you will be working on domestic and industrial work such as extensions, building bungalows, new builds and renovation work. You will learn how to prepare foundations to specific designs and in accordance to construction regulations, how to mix cement and mortar and how to lay bricks and blocks. You will always work alongside a colleague to ensure a high quality of work. You will learn how to cut and shape bricks to specific shapes to fits properties.

Wages: £148.00 per week. Any overtime above the 40 hours per week, will be paid at the appropriate national minimum wage depending on age.

Holiday: 28 days holiday entitlement (including bank holidays) will be paid each year, during the course of your apprenticeship.

We are currently recruiting apprentices.

Drop us an email if you're keen to hello@elmesconstructionltd.co.uk

Bricklaying Apprenticeships

We have a large number of Bricklaying Apprenticeships available throughout the Plymouth area looking to be filled. This is an Apprenticeship opportunity to learn the Bricklaying trade whilst working on site as well as attending City College, Plymouth for one day a week.

If you are have a good work ethic and willing to learn a trade in order to give yourself a career for the future then please apply. Math's and English are required at Level 1 or above, if you do not have these then you can work towards these qualifications during the two years. During the course of the Apprenticeship you will be supported by a designated Apprenticeship Officer who will ensure that you are getting the skills and knowledge you require on site as well as supporting you in college.

For more information and to apply, please send an email to Darren.murrish@citb.co.uk. Include your CV if you have one and information on any previous experience you have.

City College Plymouth Apprenticeships

With a City College Plymouth Apprenticeship, you could get new qualifications, learn new skills and get paid to do it!

Various Construction Trade Apprenticeships: Bricklaying, Carpentry, Drylining, Painting and Decorating & More

If you would like a lifelong career in construction and to earn while you learn then an apprenticeship with Shared Apprenticeships South West will be perfect for you. We work with top construction firms and are currently looking for willing [trade](#) apprentices in the specified area. These trades include, but are not limited to;

Bricklaying; Bricklayers lay bricks, pre-cut stone, concrete blocks and other types of building blocks in mortar to construct and repair walls, foundations, partitions, arches and other structures. Bricklayers work outdoors and may have to work at heights or in tunnels and shafts, usually working in teams. They may work on a range of projects, from creating a single conservatory to building brand new homes or large commercial developments.

Carpentry; A carpenter is a trained craftsman skilled in woodwork. They measure, mark, cut, shape, fit and finish timber – either by hand or with power tools. Wood is an essential part of just about any building. Carpenters work on the roof, floor and walls by making and installing parts such as floor joists, floorboards, roof trusses and wall partitions. They fit all kinds of interior woodwork, such as staircases, doors, skirting boards, cupboards and kitchens.

Painting and Decorating; A painter and decorator make walls and ceilings shipshape and attractive using paint, wallpaper and other finishes. Specialist techniques include applying decorative paint finishes such as stencils, colour glaze, graining, marbling and lettering. A painter and decorator's job includes working out what materials are needed for a particular project by taking measurements or looking at job specifications or drawings.

Drylining; A dry liner creates the walls and rooms in a new building. They also hide pipes and wires, create space for insulation and smooth out uneven surfaces during renovation work. These tradespeople are skilled in building the internal walls in all types of buildings, using metal stud partitioning and plasterboard sheets. They also put in partitions that can move location later if need be, along with suspended ceilings and raised flooring.

With no experience necessary, an apprenticeship is perfect for those coming out of education (GCSE's, A-levels or college) or someone who wants a career change. Generally, apprentices spend 4 days at a work placement gaining evidence for their NVQ and 1 day at college learning and gaining diplomas in their chosen trade. Progress through the levels will be managed by an Apprentice Training Schedule which sets out the mandatory and optional units of work that need to be completed. Being employed by Shared Apprenticeships South West means you are guaranteed the opportunity to complete your apprenticeship with one or more of our host contractors. You will receive the national minimum wage for your age (which is higher than the national apprenticeship wage) and you will also get paid for your college day. At SASW, your dedicated mentor is in place to help and guide you through your apprenticeship.

People Specification

- Organised; Motivated; Positive; Enthusiastic approach to work and college
- Ability to communicate to a variety of people
- Able to work as part of a team as well as use own initiative
- Punctual
- Interest in the construction industry, previous experience/qualifications useful but not required
- Grades A-C in English, Maths and preferably Science
- A CSCS card is required – this will be managed by Shared Apprenticeships; the individual will need to pass this prior to starting their role if not already held
- Own transport an advantage but not a requirement

For more information and please visit our website www.sharedapprenticeships.com

Apprentice Site Manager / Quantity Surveyor – Plymouth

If you would like a lifelong career in construction and to earn while you learn then an apprenticeship with Shared Apprenticeships South West will be perfect for you.

We work with top construction firms and are currently looking for willing construction technician apprentices in the specified area. People who have completed this programme often go on to be Site Managers, Quantity Surveyors, Estimators or Planners.

Successful applicants will start working towards a BTEC in “Construction in the Built Environment” and NVQ3 in “Construction Contracting Operations”. Weeks are split by 4 days’ work with a host contractor and 1 day at college, for the duration of the 2 year apprenticeship.

Working with the main and the sub-contractors on site and supporting the management team you will learn all aspects of running a safe and productive construction site. In the first year you will gain a solid base in health, safety and welfare, preparing programmes and schedules of work and developing and maintaining working relationships alongside basics skills in estimating, planning, buying, surveying and site technical support. During the second year an area of expertise may be selected to specialise in.

Being employed by Shared Apprenticeships South West means you are guaranteed the opportunity to complete your apprenticeship with one or more of our host contractors. You will receive the national minimum wage for your age (which is higher than the national apprenticeship wage) and you will also get paid for your college day. At SASW, your dedicated mentor is in place to help and guide you through your apprenticeship.

Duties may include, but are not limited to –

- Assisting the project management team in the running of a construction site
- Conducting site inspections with the site manager
- Working with estimators and surveyors
- Attending meetings with the project manager, site manager and other external parties

People Specification

Successful candidates will be at least 16 years old, work safely and responsibly at all times be meet the following criteria –

- Organised; Motivated; Positive
- Enthusiastic approach to work and college
- Ability to communicate to a variety of people
- Able to work as part of a team as well as use own initiative
- Punctual
- Interest in the construction industry, previous experience/qualifications useful but not required
- Grades A-C in English, Maths and preferably Science
- A CSCS card is required – this will be managed by Shared Apprenticeships; the individual will need to pass this prior to starting their role if not already held
- Own transport an advantage but not a requirement

Apply at <https://www.indeed.co.uk/>

Refrigeration & Air-Conditioning (HVAC) Apprentice – Johnson Controls

An apprenticeship with us will see you building new skills, while applying your knowledge to real-world live projects. There will be plenty of opportunities to explore your potential and you'll enjoy full support from your line manager and a mentor. You will be required to ensure that you adhere to safe working practices and also be able to take instructions and act upon them in a prompt and professional manner. We are offering a full-time permanent Advanced Level 3 Apprenticeship Programme for talented people. This is a genuine alternative to university for people who have a passion for engineering and who want to launch their career with us.

The apprenticeship will combine on-the-job work experience, with time at college to achieve a level 3 Diploma. You will learn to maintain and oversee the installation, assembly, fitting, testing and commissioning of complete building services engineering systems.

Qualifications - What we look for

- BTEC in Engineering/ IT Level 2 or 4 GCSE (or equivalent) at Grade C minimum - in Math, English, Science and IT/CDT or equivalent
- Enthusiasm to learn and an interest in problem solving
- Self-motivated; Good IT skills; Excellent communication skills
- Ability to work both independently and as a team player
- Although no engineering experience is required, candidates must show an interest in engineering
- Work authorisation for the UK is essential

Apply at <https://www.indeed.co.uk/>

Scaffold Labourer, Trainee Scaffolders, Level 2 & Advanced Scaffolders - Wood Group Industrial Services Ltd. - Plymouth

Wood Group Industrial Services is a leading provider of a range of specialist industrial support and fabric maintenance services to the construction, maintenance, decommissioning and replacement of major industrial assets.

Our Plymouth Marine Operation works on ships and submarines.

Successful candidates will require security clearance to access the site and have some flexibility in days and hours of work to meet operational needs.

Standard working hours are 39 hours per week.

Salary rates are competitive and will be disclosed upon application. We also pay enhanced rates for evening and weekend working

These roles are physically challenging and involve manual handling activities. Experience of using various scaffolding systems will be advantageous.

You will also need to have good written and verbal communication skills to ensure communication with other team workers, supervisors and our customer and to also enable full compliance with health and safety regulations.

Full drug and alcohol testing is carried out prior to and during employment.

Apply at <https://www.indeed.co.uk/>

Industrial Painting Apprentice - Wood Group Industrial Services Plymouth

City College Plymouth

You will be working within an industrial marine dockyard based in Devonport, Plymouth. Working within small teams you will be required to prepare, clean and paint surfaces using a variety of tools and techniques.

These will include:

- Using handheld and pneumatic tools
- Abrasive cleaning techniques
- Spray application
- Industrial vacuuming
- Maintenance and use of high pressure equipment
- Mixing and application of paint via hand, roller and machine applied paint methods

Desired skills

- Comfortable working at heights and within confined spaces
- Able to carry out physical work using face masks, sometimes using breathing apparatus
- Have excellent attention to detail

Personal qualities

- Must be enthusiastic and keen to learn
- Enthusiasm
- Strong work ethic

Desired qualifications

GCSEs grade C/4 or above (or equivalent qualifications) in maths and English preferred but not essential.

Future prospects

Within 6 months of successfully completing the 2 year apprenticeship you will be placed on the 'Train the Painter' training course.

Apply at <https://www.indeed.co.uk/>

Fenestration Apprentice - Right Price Pvcu Products Limited - Plymouth PL7

The role will be varied and interesting and duties will include working in a factory environment manufacturing PVCu products which could include double glazed windows, doors and frames. The successful apprentice will also be trained in working from cutting sheets and finishing the windows. Another side of the role will be working with the fitting team and assisting with the installation of windows, doors and conservatories.

The apprentice will start off with general labouring duties whilst gaining an insight into the trade and learning new skills. This is a fun and interesting role for the right person who is keen to learn and develop new skills.

Future prospects

Whilst you will initially be working towards your NVQ qualification, there will be an opportunity for an apprentice with the right skills, ability and attitude to progress onto a full time role within the company.
